# Rattil – Package Guide (Test Version)

This document is provided for TestFlight testing purposes. It represents the type of digital content unlocked after a successful in-app subscription purchase.

## 1. About Rattil

Rattil is a Quran learning application offering structured learning packages. Each package provides a guided approach to Quran recitation and study.

## 2. Subscription Unlock

After completing a subscription purchase, users gain access to subscriber-only digital content within the app, including package documentation and learning guidelines.

## 3. Classes & Learning

Live Quran classes are conducted online using external platforms. The structure and flow of these classes follow the package details unlocked in the app.

## 4. What Happens After Payment?

Once payment is successful:
- The subscription becomes active
- This package guide is unlocked
- The Rattil team will contact the user with next steps

## 5. Test Content Notice

This is sample content intended for TestFlight review and testing. Final content will be provided in the App Store release.
